

# Hearts for Haiti

Naturally, we are all concerned about the terrible devastation and human suffering in Haiti. Our school would like to respond in some way. We have been offering our prayers for the victims of this terrible natural disaster, and we would also like to show our support through a monetary donation. The teachers and staff have begun a fund to give to Catholic Relief Services, which has a significant presence in the relief efforts in Haiti.

The January Pillar of the Month is Fairness. Part of fairness is sharing. Children of all ages are familiar with the concept of sharing. Showing our compassion and solidarity with other people, especially those most in need is also a huge component of the Pillar of Caring. It is also expected of us as disciples of Christ. We are teaching the children the importance of compassion and sharing in response to the great need in Haiti. We urge you to help them give of their own money and do extra chores to earn more. Parents are also invited to make donations through our Hearts for Haiti Campaign.

Our fundraising efforts for Catholic Relief Services will conclude on **February 1**. You will be hearing more about our “Hearts for Haiti” activities in the days to come.
